

"Ask Romagna Tourism": the assistant that answers visitors, without cookies and without registration

A question in natural language, an answer built from the site's pages. And the portal can be saved on your phone like an app.

"What can I do in Rimini this weekend?" "Where can I eat a piadina near Cervia?" "How do I get to San Leo without a car?" These are the questions a tourist usually asks a local friend. On romagnatourism.it you can ask the "Ask Romagna Tourism" assistant, at the top of every page.

How it works

The assistant reads the portal's pages (events, places, timetables, transport) and writes a short answer with links to the right pages. It answers in the language of the page, among the 11 on the site. The most frequent questions become a question and answer page that grows over time.

Respect for readers

Romagna Tourism does not use cookies, has no advertising scripts that track readers and does not require registration. Questions to the assistant are kept without anything that identifies who asked them, only to understand what the site is missing.

On your phone like an app

From a phone the site can be saved on the screen with its logo and opens like an app, without downloading anything from a store. From the site you can also send virtual postcards with places in Romagna.

Report to us

At the bottom of every page there is a "Report to us" box: anyone who finds an error or missing information writes to the editorial team, who corrects it.

Automatic translation of the original Italian release.

Romagna Tourism at a glance

Romagna Tourism (romagnatourism.it) is an independent travel portal about Romagna, online since 16 October 2026. It describes 185 towns from Bologna to Pesaro, from the sea to the Apennines, in 11 languages: the events calendar, museums, castles and monuments, nature, cycle routes and long walks, food and local products, history, famous people and dialects, together with practical services updated in real time such as trains, flights, buses and traffic. It is an editorial project of Passione Turismo di Bacchini Alessandro: it informs visitors, sells no packages and uses no cookies.
